

Pike Solutions

Pike Textiles are providers of display solutions for the Home Furnishings industry and have been for over 100 years. Working with the most prominent names in fabrics and textiles to ensure their products are beautifully presented.

Pike Solutions is born out of that tradition, with the focus on providing the same level of expertise to all display and promotion sectors.

In particular our display case making facility offers flexibility from large run cases and binders (several thousand) to shorter run bespoke case and display boxes. Utilising both modern machine methods and hand craft to create that special something.

With 100 staff and over 55,000 sq ft of production and storage space we can also cater for all your hand assembly, collating, pick and pack or fulfilment projects.

Please see overleaf for a full range of services.
